

MAINE DEEDS Somerset County

Somerset County is one of the great central and northern counties of Maine. It is about 135 miles in length, north and south, with an average width of some 30 miles.

Somerset County was incorporated March 1, 1809. Its territory was formerly embraced in Kennebec County and sections of it have since been taken to form Franklin and Piscataquis counties. Norridgewock was the shire town until about 1870, when a new and elegant brick building containing a court-room and offices are presented to the county by Hon. Abner Coburn, and the county seat was changed to Skowhegan.

In this CD-Rom series, Picton Press brings you the original images of all surviving deeds from the county for the years 1809-1863. Deeds are a wonderful source of genealogical data and will help you research many of your Maine families. Somerset County Deeds available, include the following:

Grantor index, including the years 1809-1863
 Grantee index, including the years 1809-1863
 Volumes 1-91, including the years 1809-1861
